

INVERTER SYSTEM Auto Spotter

ASI-12000T

SUPERME MODEL

**12000A Large power with
2000Hz, Water Cooling System
Suitable for welding of High
Tensile Steel**

Features

- You will realize 12000A power with 2000Hz, which is much more efficient than 12000A with 1000Hz
- High frequency operation results in less power consumption.
- Built-in transformer is 25% lighter than competitive welders.
- Light weight design makes the unit easy to move or carry.
